SCALA 1/4

BASIC SLEEVE FOUNDATION

The sleeve foundation is based upon the basic bodice, whose armhole circ. must be accurately taken. In order to ensure a perfect fit of the sleeve, and at the same time to ease movements, it is necessary to add 3-5 cm to the armhole circ. Begin with top left corner of the square. This is point A.

A-B = $\frac{1}{2}$ size (- 1 cm)

C = $\frac{1}{2}$ of A-B

A-D = $\frac{1}{10}$ size + 0,5 cm

A-E = $\frac{1}{10}$ height - 1 cm

B-E₁ = Parallel to A-E

Copy measurements from the opposite side and connect points B₁-D, E-E₁.
